

## Neenah Invaders Team Prospectus

The Invaders are an improving team and we have a goal to play at the state level. This season we won two tournaments (Tosafest and Tom's Drive-in). We played U13 National first flight and were very competitive. We plan to apply for state league for the Fall season and if we aren't accepted, we will apply again for the Spring season. We do have a trainer who trains us one practice/ week all year. In addition, in the summer and when possible, the coaches will run a second practice. We plan to play two Fall and four Spring/Summer tournaments and 2-3 sessions of indoor soccer. Cost last year was around \$700.

Soccer is fun and it is more fun when we see that we are getting better each week. Therefore, we will work hard at practice to continue to improve both our soccer skills and tactics at all our practices. We will show good sportsmanship at games because we know our competitors are there to challenge us and test our progress. I do encourage girls to be well rounded by playing other sports and being involved in other activities.
